

## Perpendicular Bisectors - Worksheet

### Skill

#### Group A - Perpendicular bisector of a line

Construct a perpendicular bisector for each of the line segments below:

1)

2)

3)

4)

5)

6)

## Perpendicular Bisectors - Worksheet

### Group B - Drawing lines and perpendicular bisectors

Draw the following size lines and construct a perpendicular bisector for each of the lines:

**1)** 10cm

**2)** 12cm

**3)** 140mm

**4)** 130mm

**5)** 10.5cm

**6)** 108mm

## Perpendicular Bisectors - Worksheet

### Group C - Constructions from a point to a line

Construct a perpendicular bisector from the point to the line segment.

1)

2)

3)

4)

5)

6)

## Perpendicular Bisectors - Worksheet

### Applied

- 1) Using a ruler and compass construct a perpendicular from the point to line segment SM.

- 2) Using a ruler and compass construct a perpendicular bisector for each of the sides of triangle ABC. Clearly label the point where the bisectors intersect.

## Perpendicular Bisectors - Worksheet

- 3) Using a ruler and compass construct a perpendicular bisector for each of the sides of triangle PQR. Clearly label the point where the bisectors intersect.

## Perpendicular Bisectors - Exam Questions

- 1) Using a ruler and compass construct a perpendicular bisector for line segment  $XY$ .

.....  
(2 marks)

- 2) Using a ruler and compass construct a perpendicular bisector for each of the sides of triangle  $XYZ$ . Clearly label the point where the bisectors intersect.

.....  
(4 marks)

## Perpendicular Bisectors - Exam Questions

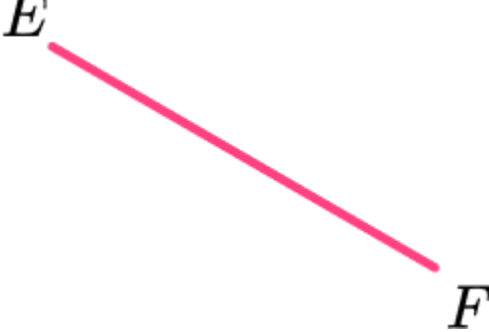

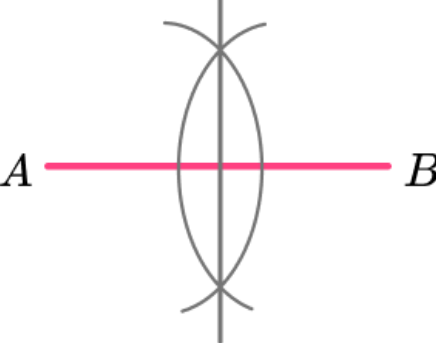

- 3) Using a ruler and compass construct a perpendicular from the point to line segment AB.

.....  
(3 marks)

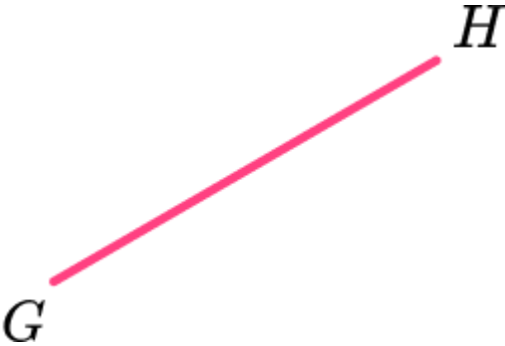

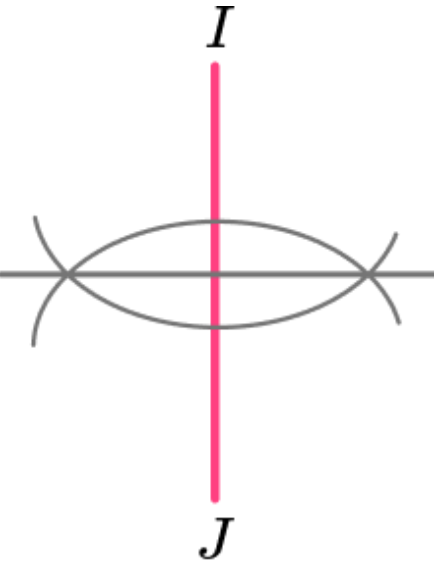

---
