# Adding and Subtracting Integers Worksheet

Number and Quantity

**Grades 6 to 8**

## Skill Questions

Name: .....

Date: .....

1

Answer

Write an equation to represent the model.

2

Answer

Write an equation to represent the model.

3

Answer

Write two equations to represent the model.

4

Answer

Write two equations to represent the model.

5

Show  $-5 + (-6)$  as a model.

## Adding and Subtracting Integers Worksheet | Grades 6 to 8

6 Write  $-11 - 5$  as an addition expression.

Answer

7 Write  $9 + (-5)$  as a subtraction expression.

Answer

8 Solve  $-4 + (-13) = ?$

Answer

9 Solve  $-5 - (-8) = ?$

Answer

10 Solve  $3 - (-3) = ?$

Answer

## Applied Questions

11 Fill in the missing integer. Then explain how you solved.

a.  $\underline{\hspace{1cm}} - (-5) = 2$

Answer

b.  $8 + \underline{\hspace{1cm}} = -4$

Answer

12

Three students wrote expressions to represent the model.

- Jesse wrote  $1 - 8$
- Zeke wrote  $1 + (-8)$
- Jay wrote  $1 - (-8)$

Which expressions are correct? Explain.

Answer

13 The temperature was  $-8^{\circ}\text{F}$ . It fell 5 degrees by noon. Write an equation to represent the temperature at noon.

Answer

## Adding and Subtracting Integers Worksheet | Grades 6 to 8

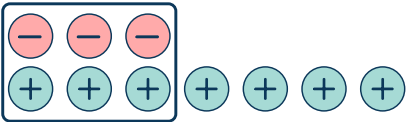

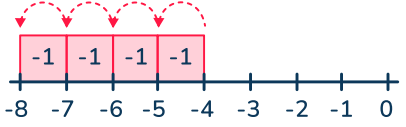

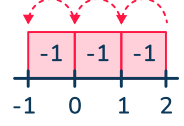

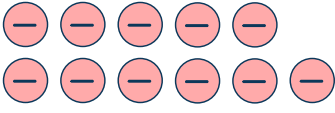

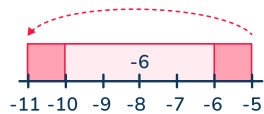

- 14 Hudson was at an elevation of  $170\text{ m}$ . After hiking an hour, Hudson's elevation changed by  $-80\text{ m}$ . What is Hudson's current elevation?

Answer

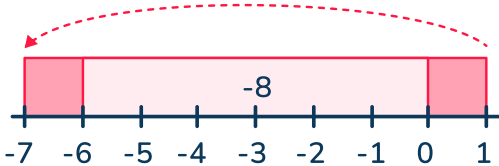

- 15 A whale was at  $-23\text{ ft}$  above sea level. It swam straight up and jumped out of the water, changing its sea level position by  $28\text{ ft}$ . Write an equation to represent the whale's position when it jumped out of the water.

Answer

# Answers

Question number	Question	Answers	Standard
1	 <p>Write an equation to represent the model.</p>	$-3 + 7 = 4$	7.NS.A.1
2	 <p>Write an equation to represent the model.</p>	$-5 - (-4) = -1$	7.NS.A.1
3	 <p>Write two equations to represent the model.</p>	$-3 + (-4) = -7$ $-3 - 4 = -7$	7.NS.A.1
4	 <p>Write two equations to represent the model.</p>	$2 + (-3) = -1$ $2 - 3 = -1$	7.NS.A.1
5	Show $-5 + (-6)$ as a model.	 <p>OR</p> 	7.NS.A.1
6	Write $-11 - 5$ as an addition expression.	$-11 + (-5)$	7.NS.A.1

## Adding and Subtracting Integers Worksheet | Grades 6 to 8 | Answers

Question number	Question	Answers	Standard
7	Write $9 + (-5)$ as a subtraction expression.	$9 - 5$	7.NS.A.1
8	Solve $-4 + (-13) = ?$	$-17$	7.NS.A.1
9	Solve $-5 - (-8) = ?$	3	7.NS.A.1
10	Solve $3 - (-3) = ?$	6	7.NS.A.1
11	Fill in the missing integer. Then explain how you solved. a. $\_\_\_\_ - (-5) = 2$ b. $8 + \_\_\_\_ = -4$	a. Subtracting $-5$ is equal to adding 5. Since the answer is 2 and 5 was added, the missing number is $-3$ .  b. 8 is positive and the sum is negative. That means the number added was negative and had a magnitude that was 4 larger than 8. This means the missing number is $-12$ .	7.NS.A.1
12	 <p>Three students wrote expressions to represent the model.</p> <ul style="list-style-type: none"> <li>• Jesse wrote <math>1 - 8</math></li> <li>• Zeke wrote <math>1 + (-8)</math></li> <li>• Jay wrote <math>1 - (-8)</math></li> </ul> <p>Which expressions are correct? Explain.</p>	Jesse's expression is correct because the model starts at 1 and subtracts 8. Zeke's is also correct because adding $-8$ is equal to subtracting 8.	7.NS.A.1

## Adding and Subtracting Integers Worksheet | Grades 6 to 8 | Answers

Question number	Question	Answers	Standard
13	The temperature was $-8^{\circ}\text{F}$ . It fell 5 degrees by noon. Write an equation to represent the temperature at noon.	$-8 - 5 = -13$ OR $-8 + (-5) = -13$	7.NS.A.3
14	Hudson was at an elevation of $170\text{ m}$ . After hiking an hour, Hudson's elevation changed by $-80\text{ m}$ . What is Hudson's current elevation?	$90\text{m}$	7.NS.A.3
15	A whale was at $-23\text{ ft}$ above sea level. It swam straight up and jumped out of the water, changing its sea level position by $28\text{ ft}$ . Write an equation to represent the whale's position when it jumped out of the water.	$-23 + 28 = 5$	7.NS.A.3

## Do you have a group of students who need a boost in math?

Each student could receive a personalized lesson every week from our specialist one-on-one math tutors.

- ✓ Differentiated instruction for each student
- ✓ Aligned to your state's standard
- ✓ Scaffolded learning to close gaps
