Pie Chart Worksheet

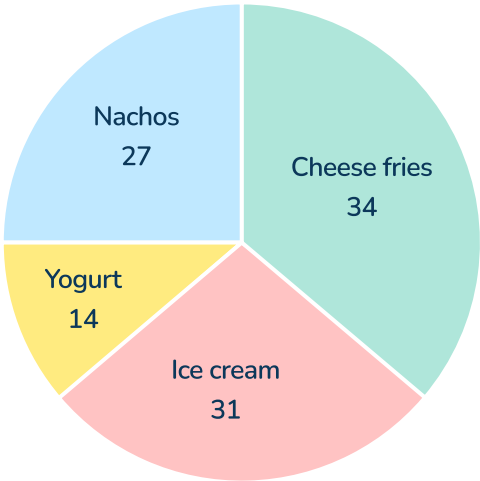

Statistics and Probability

Grades 6 to 8

Skill Questions

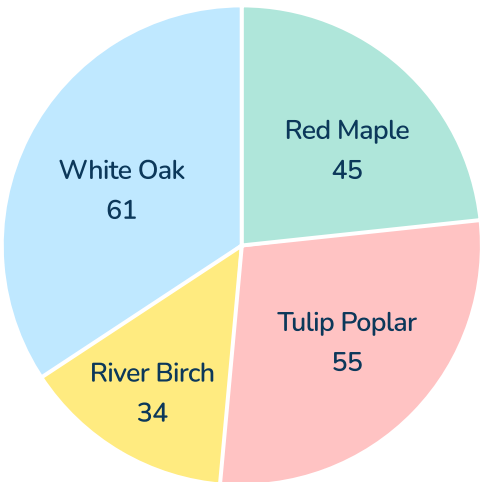

Name:
Date:

- 1 Beach Bites surveyed customers on their favorite snack. The pie chart below represents the data. How many more customers prefer ice cream to yogurt?

Answer

- 2 A park ranger recorded the types of trees found in a park. The pie chart below represents the data. How many of the trees were White Oak and Red Maple?

Answer

Pie Chart Worksheet | Grades 6 to 8

- 3 A group of students were surveyed about their favorite sport to play. The pie chart below represents the data. How many students were surveyed?

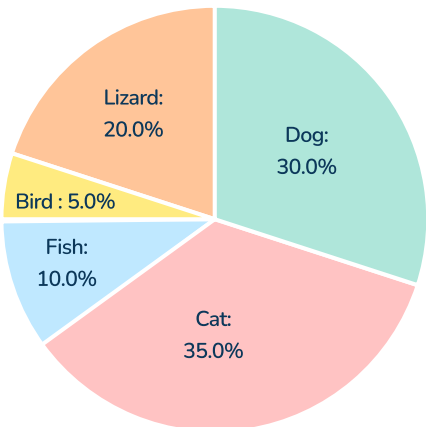

Answer

- 4 A group of 6th graders each set one new personal goal. The pie chart below represents the data. If 86 6th graders set a goal, how many had a goal to try new food?

Answer

- 5 The pie chart shows the animals that were adopted from a pet store in March. If 80 animals were adopted in March, how many of those were cats?

Answer

Pie Chart Worksheet | Grades 6 to 8

- 6 A group of students were surveyed and asked “How do you get to the library from your house?” The pie chart below represents the data. If 60 students said car and they were 40%, how many students were surveyed?

Answer

- 7 A statistician surveyed people on their favorite season. The pie chart below represents the data. If 800 people were surveyed, how many chose Spring?

Answer

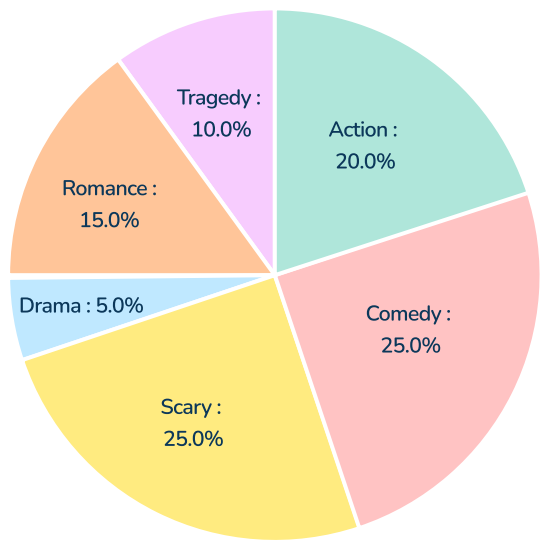

- 8 A birdwatcher counted each time he saw a species of bird. The pie chart below represents the data. If 64 cardinals were counted and they were 16%, how many birds were counted in all?

Answer

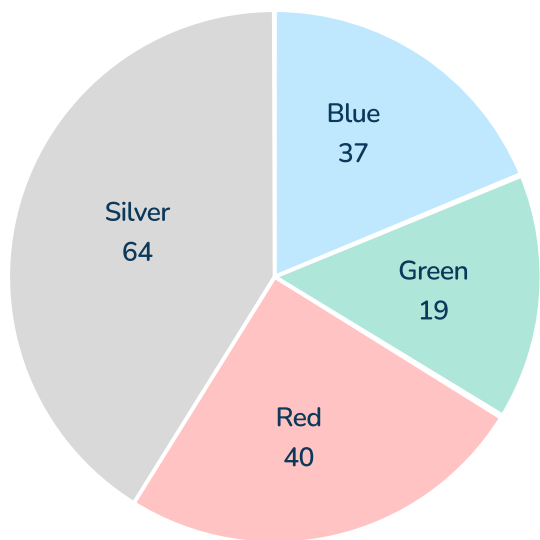

Pie Chart Worksheet | Grades 6 to 8

- 9 Movie goers were surveyed on their favorite movie genre. The pie chart below represents the data. If 250 people were surveyed, how many chose action?

Answer

- 10 A car dealer surveyed customers on which car color they preferred. The pie chart below represents the data. What percent of the customers prefer silver cars?

Answer

Applied Questions

11 Draw a pie chart for the following data.

Animal	Total amount
Cow	110
Horse	16
Chicken	30
Pig	44

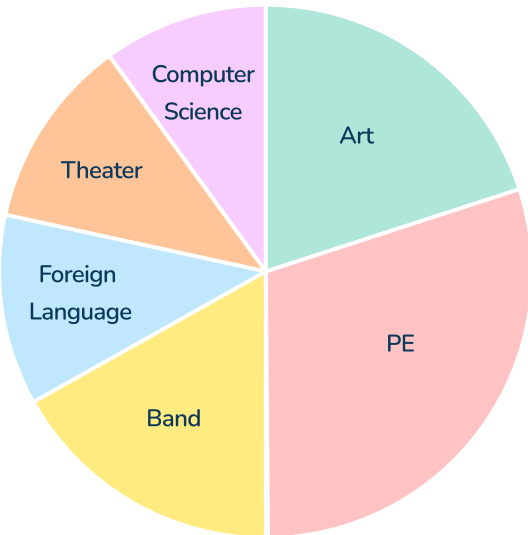

Answer

12 400 people were surveyed about their favorite color.
How many people said Orange, Blue or Teal?

Answer

13

A class was looking at the pie chart and students made the following statements:

- “Art and band combined are about 25%.” – Jordan
- “PE is around 30%.” – Ayla
- “Band is about twice as much as theater.” – Imani

Decide whether each statement is correct. Explain.

14 Create two possible data sets, with less than 100 data points, that could be represented by the pie chart.

Data set 1:

Yes	
No	

Data set 2:

Yes	
No	

15 What percent of students chose graphic designer as their future career?

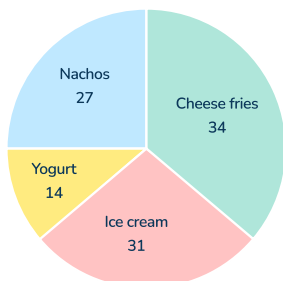

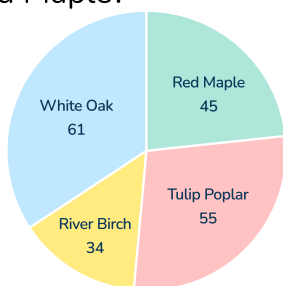

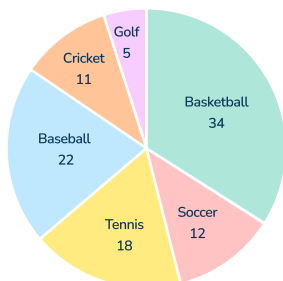

Future Career	No. of Students
Engineer	14
Graphic Designer	20
Social Worker	18
Chef	15
Electrician	8

Sibelly's work:

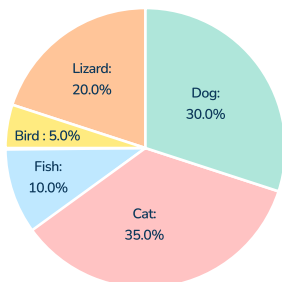

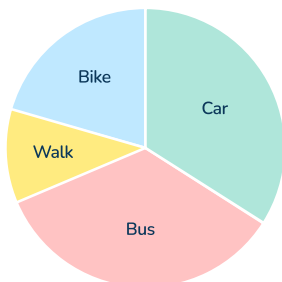

Explain how Sibelly solved. Correct any mistakes.

Answers

Question number	Question	Answers	Standard														
1	<p>Beach Bites surveyed customers on their favorite snack. The pie chart below represents the data. How many more customers prefer ice cream to yogurt?</p>  <table><thead><tr><th>Snack</th><th>Count</th></tr></thead><tbody><tr><td>Cheese fries</td><td>34</td></tr><tr><td>Ice cream</td><td>31</td></tr><tr><td>Nachos</td><td>27</td></tr><tr><td>Yogurt</td><td>14</td></tr></tbody></table>	Snack	Count	Cheese fries	34	Ice cream	31	Nachos	27	Yogurt	14	17 customers	6.RP.3.c

Question number	Question	Answers	Standard												
13	<div></div> <p>A class was looking at the pie chart and students made the following statements:</p> <ul style="list-style-type: none">• “Art and band combined are about 25%.” – Jordan• “PE is around 30%.” – Ayla• “Band is about twice as much as theater.” – Imani <p>Decide whether each statement is correct. Explain.</p>	<p><i>Explanations will vary.</i></p> <p>Example answer: Jordan is incorrect. Both art and band seem to be around 20%, so together they would be close to 40%. Ayla is correct, because it is a little more than $\frac{1}{4}$ of the pie. And Imani is also correct, because the statement matches the size of the pie pieces.</p>	6.RP.3.c												
14	<p>Create two possible data sets, with less than 100 data points, that could be represented by the pie chart.</p> <div></div> <p>Data set 1:</p> <table><tr><td>Yes</td><td></td></tr><tr><td>No</td><td></td></tr></table> <p>Data set 2:</p> <table><tr><td>Yes</td><td></td></tr><tr><td>No</td><td></td></tr></table>	Yes		No		Yes		No		<p><i>Answers will vary, but the value for ‘Yes’ should be 3 times the value for ‘No.’</i></p> <p>Example answer:</p> <table><tr><td>Yes</td><td>6</td></tr><tr><td>No</td><td>2</td></tr></table>	Yes	6	No	2	6.RP.3.c
Yes															
No															
Yes															
No															
Yes	6														
No	2														

Question number	Question	Answers	Standard												
15	<p>What percent of students chose graphic designer as their future career?</p> <table border="1"><thead><tr><th>Future Career</th><th>No. of Students</th></tr></thead><tbody><tr><td>Engineer</td><td>14</td></tr><tr><td>Graphic Designer</td><td>20</td></tr><tr><td>Social Worker</td><td>18</td></tr><tr><td>Chef</td><td>15</td></tr><tr><td>Electrician</td><td>8</td></tr></tbody></table> <p>Sibelly's work:</p> <p>Explain how Sibelly solved. Correct any mistakes.</p>	Future Career	No. of Students	Engineer	14	Graphic Designer	20	Social Worker	18	Chef	15	Electrician	8	<p><i>Explanations will vary.</i></p> <p>Example answer: Sibelly found the total was 75 students, which would be 100%. Then she set up a double number line and found that 10% was 7.5. So she just doubled that to find 20%.</p> <p>Instead she needed to work out the percentage of 20 out of 75, using the bottom number line to get the percentage on the top. 26.7% (1dp)</p>	6.RP.3.c
Future Career	No. of Students														
Engineer	14														
Graphic Designer	20														
Social Worker	18														
Chef	15														
Electrician	8														

Do you have a group of students who need a boost in math?

Each student could receive a personalized lesson every week from our specialist one-on-one math tutors.

- ✓ Differentiated instruction for each student
- ✓ Aligned to your state's standard
- ✓ Scaffolded learning to close gaps
