# Math Flashcards

Times Tables

3rd to 5th Grade

## About this resource

This resource is designed to be used during interventions or class activities to support retrieval of key math facts. These cards can be used with individual students or groups of students.

The flashcards have been designed so that they can be cut out and folded in half, forming a two-sided card.

Alternatively, the cards can be cut into two parts and matched together in a pairs activity.

To reinforce the conceptual understanding of times tables, concrete resources can be used. Arrays are an excellent way to demonstrate times table facts.

## Do you have a group of students who need a boost in math?

Each student could receive personalized lessons every week from our specialist one-on-one math tutors.

- ✓ Differentiated instruction for each student
- ✓ Aligned to your state's standards
- ✓ Scaffolded learning to close gaps

“We just had our first session and it went great! The kids really liked it and felt like they were learning! One even said he finally felt like math was making sense.”

Michelle Craig, Instructional Coach,  
Sherwood Forest Elementary, Washington
